

PUBLIC LEDGER

FOURTH YEAR.

MAYSVILLE, KY., MONDAY, APRIL 1, 1895.

ONE CENT.

LARGEST IN THE CITY.

Purely Business!

The volume of a newspaper represents a cash value. No publisher can afford to pay more than the cost of paper and free and more than a merchant can afford over his counter free gifts of dry goods, hardware, etc., to the public for legitimate business concern. Its cost is to him, its value to the public, no merchant should be paid for, no matter in what part of the paper they may be placed.

The Continued Call

upon THE LEDGER for free notices has become so burdensome that we are compelled to publish the following terms:

For Notices of Successes,

executions, sales, other public enter- tainments, &c., may be changed, for ordinary notices, resolutions of reg- iments, &c., THE LEDGER CHARGES FIVE CENTS. This is the law and hereafter this will be the invariable rule. This, how- ever, will not affect the publication of obituaries.

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for *BUSINESS LEDGES* in THE LEDGER is \$10 per month for insertion and 5 cents a line for subsequent insertions. A newspaper orders it at \$10 per month, and if it is not paid, "I tell you when to take it out," he gets all about it. The notice runs for two months, and when it is taken up, it may be found it is there a "kick" and a controversy followed. We have had many instances to obviate that trouble, no "fill-fight" need occur. If you do not want to have a definite date at the outset and the termination will be pleased to furnish one.

ALL business publications must be handled before 9 o'clock in the morning of each day.

If you have friends mailing you, or if you are going away on a visit, please drop us a note at that effect.

He was making garden, and was engaged in hoeing, and in reaching over to stick the hoe in a particular spot, miscalculated the distance, and received a severe stroke of his head. THE NEW WOMAN.

She talked with great intensity of each man's hand propensity, and spoke with volubility of the same trait in women.

She dwelt on domesticity with maternal chivalry, and said that such felicity was really quite in vain.

With gestures oratorical and phrases metaphoric, she voiced the powers numerical that make men and women great.

And dwelt on moral degradation of young systematic, and baleful-horror spherical, and votes not bought with gold.

She said in every instance the doctors of civility would come from femininity; in hism-

ers, they would be.

And her capacity, would see all their timidity, and no more anxiety in Congress would we see.

And with such audacity she showed her great capacity, and talked with great de-

davity, her husband learned to sweep;

And while she said nothing she dwelt on her

husband's sins, until finally purgatory ho-

put the twins to sleep.

THE CUBANS

Hope to Get Recognition From the United States.

If They Can Create a Provisional Government They Will Have

Taken a Long Step in That Direction—The Heiglards Would Then Be Upon Exactly the Same Footing as Spain in Their Relations With the U. S.

WASHINGTON, April 1.—The Post says: The successes which are said to be attending the operations of the insurgents will, if they are continued, soon lead to a determined effort to secure recognition from the United States.

While no communication either formal or informal as yet been received from the state department, its arrival is not unexpected. It has always been the policy of the United States to recognize de facto governments.

If, therefore, the Cuban insurgents create a provisional government, they will have taken a long step forward in the direction of securing recognition as belligerents.

This country also demands, as a rule, that the new government shall issue currency and shall be in possession of a considerable portion of the territory over which it assumes control.

It will be remembered that Admiral Da Costa, when he led the revolt in Brazil, made the most strenuous efforts to secure recognition from the United States.

He even organized a provisional government and issued some paper currency, but the movement, complying with the usual forms for belligerent recognition could not be denied him.

It so happened, however, that he had fired upon one of our ships, and he was also known to contemplate the overthrow of Brazilian republic and the establishment of a monarchy.

For these reasons his claims were not considered.

If the Cuban insurgents should receive recognition as belligerents their government would stand upon exactly the same footing as Spain in all relations with the United States.

This, in itself, is a high stake worth playing for, but in the case of the shipment of arms to Cuba there would be no longer filibustering, and it would be a legal war. It is to be hoped, however, seen, therefore that unless Spain speedily crushes the Cuban rebellion, the future may have some interesting developments in store.

OXFORD WINS.

The Cambridge Crew Defeated in the Boat Race.

PUTNEY, Eng., April 1.—The "Varsity race Saturday between Oxford and Cambridge crews in the boat race was started at 10 o'clock Saturday afternoon.

The morning was gloomy and cold; but this did not prevent crowds of people from watching the race to the finish.

Those who witnessed the race Saturday afternoon was larger than usual on account of the late hour at which the boats were sent away.

During the morning, and Cambridge crew made steady progress, while the Oxford crew, who were behind, were making excellent progress.

His pulse and temperature were normal, and he was able to walk about his rooms.

Kyoto, the young Japanese who shot Li Hung Chang, has been sentenced to imprisonment for life at home labor.

Reunited League National Convention.

CHICAGO, April 1.—President Wm. H. Tracy and Secretary A. B. Humphrey have issued a call for the eleventh annual convention of the Reunited League National at Cleveland on April 15, 16, and 17.

The ratio of representation will be six delegates at large from each state and territory, four from each congressional district and one from each College Republican club league.

TRAIN WRECKED.

Four Young Men Injured, Three of whom

USHERVILLE, Ohio, April 1.—Four young men boarded a freight train at this place for Newcomerstown at 2 o'clock Sunday morning, and by a car breaking in two, all were injured and two of them killed.

John Wilson, a barber at Tuscarawas, had his face and head cut, besides internal injuries; Willis Berkshire, of Booth, lost both legs. Wm. Mercer had both shoulders dislocated; Oscar Hursey, of Booth, had his right arm broken in two places. Berkshire and Wilson will die.

Berkshire pulled himself loose from his pinned position at the rail and asked Hursey for his coat to wrap his body in.

He found an alliance formed between Russia and Japan is believed to be a fact.

AN ALLIANCE

Between Russia and Japan is Believed to Be a Fact.

The Former Will Obtain a Pacific Outlet From the Latter Country.

Thus Developing Into One of the Greatest Sea Powers of the Earth. This Has Been Russia's Desire for Years, and Now Her Ambition Seems Realized.

WASHINGTON, April 1.—The Post says: The successes which are said to be attending the operations of the insurgents will, if they are continued, soon lead to a determined effort to secure recognition from the United States.

Discharged Employees Suspected.

LARUE, Ind., April 1.—The plant of the Blackwood Round Oak Stove Co., at Dowagiac, Mich., was partially destroyed by fire early Sunday morning, and the cause of the fire is not known.

The company until recently employed union workers and a strike precipitated serious trouble, non-union men being hired to fill the places of union labor.

It is believed that the men who witnessed the race Saturday afternoon were witness to the appearance of belligerence, and, with her usual craft, she will take no step which will place her before the world in the attitude of an aggressor.

The advantages to Russia will not appear until after the conclusion of the terms of peace. Then it will be found that she has secured the outlet for her commerce and her navy on the Pacific.

Russia, in the opinion of the author of the autonomy of Korea, will be compelled to enter into a conflict with Japan, the northern provinces of the Celestial empire. It is suggested that Japan would never have entered upon the war with China unless she had been compelled to do so by the support of Russia.

Unless present plans fall of materialization, Eugene V. Debs will be the choice of Indiana as the candidate of the party for president. Debs can have for their object the capture of the Indians delegation to the national convention, and are being organized throughout northern Indiana.

THE SLANG DICTIONARY.

1. Work That Needs Revision and Expanding Every Week.

A slang dictionary needs revising every week, says the *Business Record*.

Each week would bring some new and expressive word or phrase is either born or adopted into a new meaning.

The other evening a Police Captain was telling of a robbery case that had come under his observation.

Said he: "The fellow had no business to go into the place. As soon as we went they spotted him for a live lobster."

"For a what?"

"For a live lobster. Haven't you heard that before?"

"What does it mean?"

"A live lobster is a man with money. That's what he is called by the people who are after his money. If they size him up and have no money they call him a dead lobster."

Another slang phrase occasionally heard in the streets, and probably destined to a long career of usefulness is "on the lee."

A man who asks a favor of another and is refused says he is "on the lee." It is equivalent to saying that "he got the marble heart."

Any one who is kept in a chilly condition by hard luck is supposed to remain "on the lee."

In the office buildings there is a new compound wall which is most expressive.

Driving the cold snap hundreds of pedestrians passed through the warm corridor of the long Madison Building every day.

This route was not only the "short cut" between Jackson and Van Buren streets, but it permitted people to escape the freezing winds which sweep along the base of every skyscraping building.

The pedestrian who comes in at one end of the building and goes out at the other, with no purpose in view except to keep warm, is called by the attaches of the building the "walker-through."

The building is crowded today, remarked some one, "but most of them are walkers-through."

Such a word is actually useful in designating a certain class of busy people.

DON'T STOP TOBACCO

IT'S INJURIOUS TO STOP SUDDENLY, and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you will have some pain, and in all cases the effect of the stimulant, be it opium, morphine or other opiates, leaves a far worse habit than the original. A doctor writing about **BACOCURO**. It is purely vegetable. You do not have to use it in any measure, as it will notify you when to stop and to give you a full time to get rid of the habit.

DECLARED ILLEGAL!

EIGHT-HOUR LAWS KNOCKED OUT BY THE SUPREME COURT OF ILLINOIS.

A decision has been handed down by the Supreme Court of Illinois which unanimously declares that the eight-hour law for women recently enacted by the Legislature of that state is unconstitutional.

The act provides that women be prohibited from working in any manufacturing establishment more than eight hours in any one day.

In the decision it is held by the Court that a woman has the right to contract to work as many hours in a day or week as she may see proper.

The mere fact of sex does not justify the lawmaking power to restrict the right of a woman to dispose of her labor as she may see fit.

The opinion goes still further than this, and lays down the broad principle that an act which abridges the freedom of contract between workman and employer in a lawful occupation is unconstitutional.

This decision is considered as a vastly important one in its far-reaching results, being the first decision rendered in the United States against eight-hour laws, and adds another obstacle in the path of the shorter hour movement.

For some time past labor organizations have been devoting special energy to the agitation of the eight hour question, and this is held to be the result.

It is held in the Board's rendering this decision that labor is property, and the laborer is declared to have the same right to sell his labor and to contract with reference thereto as has any other prop-erty owner.

The declaration that a Legislature is powerless under the state Constitution, which conforms on this point to that of the United States, to interfere with the freedom of contract, strikes at all enactments which have been made for the purpose of shortening the hours of labor. It therefore, blots the hopes and cools the ardor of thousands of labor leaders and reformers who are seeking to bring about a new order of things through legislation.

It is now generally believed that another line of action will have to be taken up with a view to obtain the desired end.
